About Us

DURAWOT is setting new benchmarks in the stainless steel water tank industry with decades of expertise in manufacturing, marketing, and distribution of high-quality infrastructure products. Symbolizing purity, durability, and trust, the brand thrives under the vision of Mr. Purshotam Goyal and the leadership of Mr. Himanshu Goyal and Sanya Goyal, making it a name synonymous with innovation and reliability in water storage solutions.

Manufactured with 304 & 316L surgical-grade stainless steel, **DURAWOT** tanks ensure water remains safe, cool, and pure, with unmatched resistance to corrosion, temperature variations, and fire hazards. With a mission to create a “**New Era of Purity**,” DURAWOT is becoming the preferred choice for smart households, industries, and institutions across India, backed by world-class technology, eco-friendly manufacturing, and a strong distribution network.

Our Mission

To protect every drop of water with purity, durability, and trust — through world-class stainless steel technology made for Indian homes.

Our Vision

To lead India into a new era of safe and sustainable water storage with premium stainless steel tanks.

Why Choose Durawot Thermoshield Water Tank?

7 LAYERD INSULATED TECHNOLOGY

Thermoshield Technology reduces heat absorption and protects the tank from sunlight and UV rays. It helps keep the stored water cooler, safer, and maintains a stable temperature inside the tank.

Why Everyone is Choosing Durawot Tanks

LAYERED-INSULATION

Advanced thermal protection to
maintain water at the right

FOOD GRADE STAINLESS STEEL

Rust-free, corrosion-
resistant and

ECO-FRIENDLY CHOICE

100% recyclable
and sustainable
design.

HYGIENIC

No bacterial growth,
no foul smell,

DURABILITY GARANTEED

Strong build with UV
protection and weather
resistant.

Because our family deserves water that's as pure and fresh as nature intended,
without harmful chemicals, odors, or temperature fluctuations.

DID YOU KNOW?

VARIOUS RESEARCH REPORT CARRIED OUT

PLASTIC TANKS ARE HAZARDOUS

CHEMICAL LEACHING

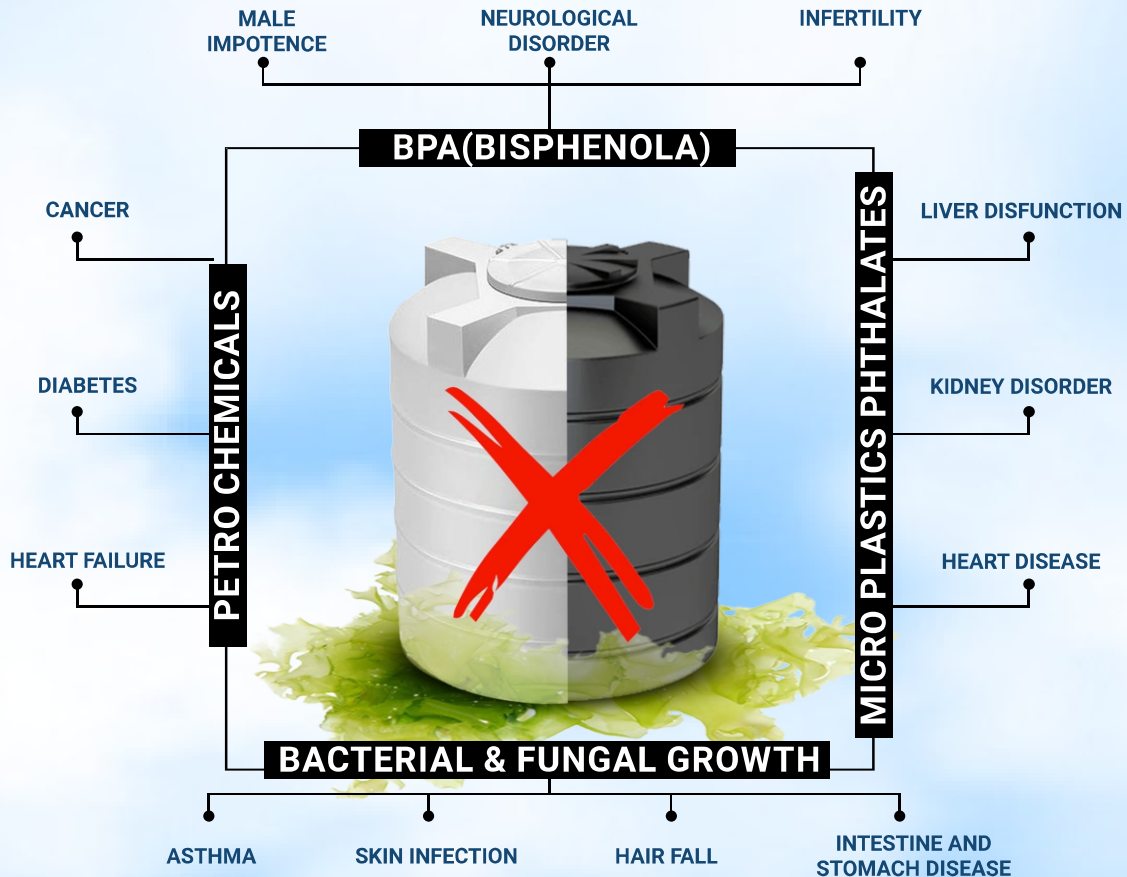

Heat and sunlight can cause plastic to release toxic chemicals (BPA, phthalates) into your

UV DAMAGE

Sunlight breaks down plastic, producing microplastics and reducing tank lifespan.

BACTERIAL GROWTH

Plastic surfaces develop scratches that harbor bacteria and algae, making water unsafe.

Serious Health Hazards of Plastic Water Storage Tanks.
RIGHT TIME TO CHANGE IS NOW.

Durawot Stainless Steel 304 Grade

BASE STAND

Strong foundation, perfect results

The strength of a tank depends on its foundation. Durawot Base Stand keeps your stainless steel tank safe, stable, and durable.

Key Features :-

- SS 304 Grade Build – Strong, rust-resistant and durable structure
- Balanced Tank Support – Even weight distribution for stability
- Long-Lasting Protection – Prevents rust and damage, lasts 25+ years
- Safe & Stable Base – Improves tank life and performance

Durawot INSULATION COVER

Durawot Insulation Cover (12mm Thick)

Key Features :-

- 4-Layer Insulation – Advanced air bubble thermal protection
- Silver Reflective Coating – Reflects sunlight, reduces heat
- Cooler Water – Keeps water up to 25–30°C cooler
- Tank Protection – Prevents scratches and damage

Cooler Water | Surface Protection | Longer Tank Life

Durawot – Stainless Steel Water Tanks | Naye Yug Ki Shuruat

The Durawot Base Stand keeps the tank safely elevated above the ground, protecting it from problems like moisture, rust, and imbalance.

AGRIWOT

STAINLESS STEEL WATER TANK

————— New Era of Agriculture —————

Why Farmers Love It

- **Long-Lasting:** 20–25 years, rust-proof & durable
- **Safe Water:** No smell or chemicals, perfect for crops & livestock
- **Water Cool:** Sun doesn't heat it
- **Easy to Maintain:** No algae or dirt build-up

Big Savings

- Cost-effective: One tank for decades
- Low GST (5%) for agriculture
- Subsidy eligible under government schemes

Perfect For

- Crop irrigation (drip & sprinkler)
- Livestock & spraying use
- Tractor-trolley irrigation

When Customers Ask **Mr. Engineer** Explain

1. Q: Why should I choose Durawot stainless steel water tank over plastic?

A: Durawot Stainless steel tanks are stronger, safer, and more hygienic, with no harmful chemical leaching.

2. Q: How long does a Durawot stainless steel tank last?

A: With Food Grade 304, 316L and Duplex Steel quality, Durawot lasts for decades without rusting or cracking.

3. Q: Is water stored in Durawot stainless steel tanks healthier?

A: Yes! Durawot Stainless steel prevents bacterial growth and keeps water pure and fresh.

4. Q: Can Durawot tanks handle extreme weather?

A: Absolutely! They are built to withstand heat, cold, and harsh conditions.

5. Q: Do Durawot stainless steel tanks change the taste of water?

A: No, unlike plastic, stainless steel keeps water natural and fresh-tasting.

6. Q: Are Durawot tanks eco-friendly?

A: Yes, Durawot 100% recyclable and sustainable for the environment.

7. Q: Do Durawot require high maintenance?

A: No, Durawot stainless steel tanks are easy to clean and need very little maintenance.

8. Q: Do they come with warranty?

A: Yes, Durawot stainless steel tanks offer up to 10 years of warranty depending on model and capacity.

9. Q: What is the storage capacity range of Durawot stainless steel tanks?

A: Durawot tanks are available from 500 liters to 5,000 litres, suitable for homes, apartments, and industries.

10. Q: Is investing in a Durawot tank worth it?

A: Definitely! One-time investment ensures decades of safe, pure, and durable water storage.

11. Q: How long is the lifespan of a Durawot tank?

A: Durawot Stainless Steel quality, the tanks last for 25+ years without corrosion or cracks.

12. Q: What is the thickness of Durawot stainless steel tanks?

A: Depending on capacity, tanks are built with 0.5 mm to 2 mm thickness, ensuring strength and durability.

13. Q: How do Durawot stainless steel tanks prevent rust?

A: High-grade Durawot stainless steel Tank has a protective chromium oxide layer that resists rust and chemical damage.

14. Q: What is the cleaning frequency?

A: Due to smooth inner walls, Durawot tanks need cleaning only once a year.

15. Q: Are custom sizes available?

A: Yes, Durawot manufactures customized tanks in different capacities to suit customer needs.
