# ABOUT US

नये युग की शुरुआत

## Our Mission

To protect every drop of water with purity, durability, and trust-through world-class stainless steel technology made for Indian homes.

## Our Vision

To protect every drop of water with purity, durability, and trust-through world-class stainless steel technology made for Indian homes.

DURAWOT is setting new benchmarks in the stainless steel water tank industry, backed by decades of expertise in manufacturing, marketing, and distribution of high-quality infrastructure products.

Symbolising purity, durability, and trust, the brand thrives under the vision of Mr. Purshottam Goyal, Chairman of BDG Group. With the progressive leadership of Mr. Himanshu Goyal and Mr. Sanya Goyal, DURAWOT has evolved into a name synonymous with innovation and reliability in water storage solutions.

Manufactured with 304 & 316L stainless steel and Duplex 2205, DURAWOT tanks ensure water remains safe, cool, and pure, while delivering exceptional resistance to corrosion, temperature variations, and fire hazards.

With a mission to create a “New Era of Purity,” DURAWOT is becoming a preferred choice for smart households, industries, and institutions across India. Backed by world-class technology, eco-conscious manufacturing, and a strong distribution network, the brand continues to redefine the standards of modern water storage.

### A BUSINESS ASSOCIATION WITH

ADITYA BIRLA GROUP

DURAWOT, a proud venture of BDG Group, is sponsored by Aditya Birla Group, combining industry expertise, strong networks, and a commitment to quality-driven infrastructure solutions.

WHY CHOOSE

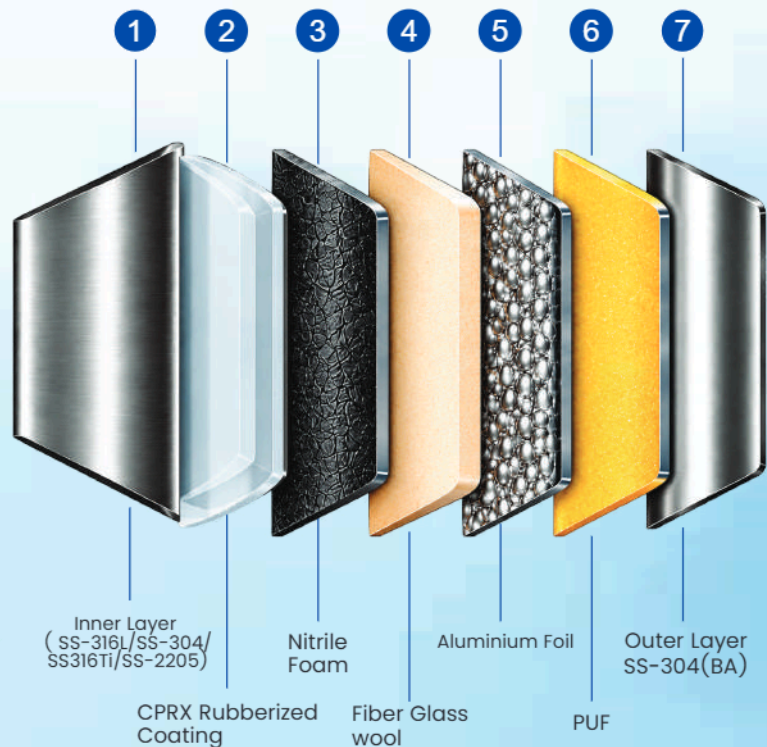

**DURAWOT**

**THERMOSHIELD**

**WATER TANK ?**

### 7 LAYERED INSULATED TECHNOLOGY

Advanced 7-layer insulation for cooler water, longer freshness and unmatched durability.

नये युग की शुरूआत

# Explore Our Wide Range of **Tank Solutions**

## **INSULATED**

Durawot Insulated Tanks are designed to provide reliable water storage with enhanced protection against external temperature variations. Their insulated construction helps reduce heat transfer, supporting better temperature stability while maintaining the durability, hygiene and corrosion resistance of stainless steel.

## **NON-INSULATED**

Durawot Non-Insulated Tanks are engineered for dependable and hygienic water storage, combining high-quality stainless steel construction with excellent corrosion resistance and structural strength. Designed for long-term performance, they offer a durable storage solution for residential, commercial and industrial applications where thermal insulation is not required.

# **durawot**

नये युग की शुरुआत

## **COPPERSHEILD**

Durawot CopperShield combines premium stainless steel construction with a specialized copper protective layer, providing an additional barrier against environmental exposure. Designed for durability and premium aesthetics, it delivers enhanced protection while making the tank suitable for demanding outdoor and architecturally visible installations.

## **DUPLEX 2205**

Durawot Duplex 2205 Tanks are manufactured using high-performance Duplex Stainless Steel 2205, offering an exceptional combination of mechanical strength and corrosion resistance. Engineered for demanding environments, they provide enhanced durability and reliability in applications exposed to harsh conditions, high chloride levels and increased structural demands.

## **WINTERSHIELD**

Durawot Wintershield features an advanced seven-layer insulation system engineered to minimize heat transfer and provide enhanced thermal protection. Designed for demanding outdoor conditions, it helps maintain more stable water temperatures while combining premium stainless steel construction with long-term durability and performance.

## **DID YOU KNOW?** **VARIOUS RESEARCH REPORTS FOUND**

### **PLASTIC TANKS ARE HAZARDOUS**

#### **CHEMICAL LEACHING**

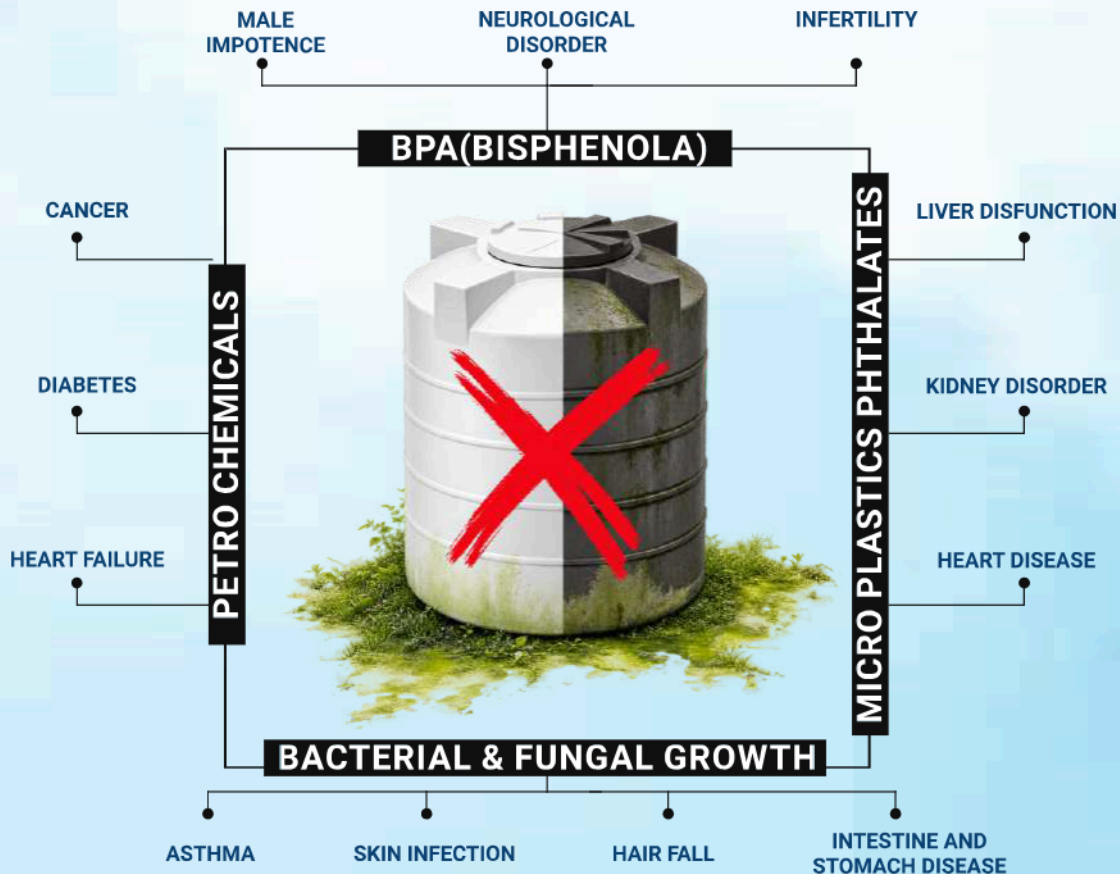

Heat and sunlight can cause plastic to release toxic chemicals (BPA, phthalates) into your water.

#### **UV DAMAGE**

Sunlight breaks down plastic, producing microplastics, and reducing tank lifespan

#### **BACTERIAL GROWTH**

Plastic surfaces develop cracks that harbor bacteria and algae, making water unsafe

## When Customers Asks **Mr. Engineer** Explains

**Q: Why should I choose Durawot stainless steel water tank over plastic?**

**A:** Durawot stainless steel tanks are stronger, safer, and more hygienic, with no harmful chemical leaching.

**Q: How long does a Durawot stainless steel tank last?**

**A:** With food-grade 304/316L and duplex steel quality, Durawot tanks last for decades without rusting or cracking.

**Q: Can Durawot tanks be used in extreme weather?**

**A:** Yes, Durawot stainless steel tanks withstand both high heat and harsh conditions.

**Q: Are Durawot stainless steel tanks eco-friendly?**

**A:** Yes, they're 100% recyclable, reduce plastic waste, and need less maintenance.

**Q: Can Durawot tanks store hot and cold water?**

**A:** Yes, Durawot tanks have layered insulation that keeps water hot or cold as needed, for longer.

**Q: How are Durawot tanks easy to maintain?**

**A:** Due to their smooth interior and exterior, Durawot stainless steel tanks are easy to clean and require less maintenance.

**Q: What is the storage capacity range of Durawot stainless steel tanks?**

**A:** Durawot tanks are available in capacities ranging from 500 liters to 50,000 liters, suitable for homes, apartments, and industries.

**Q: How long is the lifespan of Durawot tanks?**

**A:** Durawot stainless steel tanks are designed for long-lasting performance under recommended usage and installation conditions.

*Product lifespan may vary depending on usage conditions, water quality, installation environment, and maintenance practices.*
